

Golden Wattle *Acacia pycnantha*

Flowers: July to October. - H 3-10m x W 2-9m.

Fast growing and drought tolerant small to medium sized shrub or tree produces a mass of fragrant fluffy golden flowers. Generally lives less than 15 years & prefers well drained areas. Pruning while young encourages denser growth. On 1st September 1988 the Golden Wattle was officially proclaimed as Australia's national floral emblem.
