

# Chocolate Lily *Arthropodium strictum*

*Flowers: September to December. H 30-80cm x W 20-60cm.*

Attractive small to medium lily with mauve to purple flowers. Suited to moist well drained soils. Grows in full sun to part shade. Flowers produce a pleasing sweet chocolate scent. Usually completely dies back over summer & re-appears in late winter/springtime from underground tubers. Occasional watering will produce a more lush plant & a longer flowering time. Needs protecting from snails & slugs.
