

Common Hovea *Hovea linearis*

Flowers: August - October. H 30-60cm x W 30cm.

Delicate slender upright plant with purple/mauve or sometimes white flowers. Olive coloured long slender leaves, while the lower leaves are oval-shaped. *H. linearis* is hard to see among the grasses & larger plants until in flower. Prefers well drained soils. Does well on the fringes of planted areas where it get partial sun and less competition.
