

Long Purple Flag *Patersonia occidentalis*

Flowers: September to January. H 20-40cm x W 30cm.

Tufted lilly with very attractive purple flowers on long stems. Prefers lighter soils in moist to wetter areas. Will grow in full sun to shady positions. Fairly tolerant of long dry conditions. Do not let dry out completely. Flowers are short lived, daily, but are produced in abundance. Suitable for pond surrounds and damper areas. Delicate root system so be extra careful when planting, keep moist till established. Usually available at local indigenous nurseries.
