

Shiny Everlasting *Xerochrysum viscosum*

Flowers: August to April H 50cm x W 30cm to 1m

An attractive plant with showy flowers with papery petals. Flowers retain colour when dried & can be used in long-lasting floral displays. Excellent for borders & rockeries. Prefers to grow in sunny to part shade positions & will tolerate most well drained soils. Can be short-lived, extra water in summer and winter pruning can extend its life span. Keep moist until established.
